DEVOTEDLY SERVED

1931 25th ANNIVERSARY 1956

PROF. ROLLIN H. BARRETT

In many ways Professor Rollin H. Barrett's career is typical of the "Ideal American." His life began, as the sixth child in a family of ten, in Vermont. Early in his life he found himself without parental support or guidance. Upon completion of grammar school he set out to make his fortune. The desire for more education became apparent and at the age of nineteen he entered high school and at twenty-seven completed his work at Connecticut Agricultural College.

Before coming to Massachusetts Agricultural College in 1926 he served as Assistant County Agent in Hartford, Connecticut, as Lieutenant in the United States Army, as Principal of the Vermont School of Agriculture at Randolph, and as Assistant in the Department of Farm Management at Cornell University, where he received his Master's Degree.

Early training in responsibility and devotion to one's work sets a standard for a person's later life. Anyone without Pop Barrett's background could not accomplish so much with such apparent ease as he does. Although he has been awarded citations for his long and constructive work for the Athletic Department and the A.T.G. fraternity, it is only those who have worked most closely with him who know the fullness of his life.

The fraternity citation mentioned above was for 25 years of service as advisor to the fraternity. His devotion to the social and cultural improvement of Stockbridge students should qualify him as unofficial "Assistant Director."

For years he followed the athletic teams of our University, often taking whole week-ends. The films of the games helped to produce better teams. Pop's association improved the morale of the men. His films for the University recording current events, research, and teaching materials, measured in miles instead of feet, have helped to establish better public relations for our school. For years he has been Chairman of the Campus Conventions Committee. The administrations of three University presidents have left this responsibility entirely in his hands. This fact alone measures the stature of the man in the eyes of his superiors. For even a longer time he has been Chairman of the Visual Education Committee. Hours and hours of work have gone into making Visual Education at Massachusetts outstanding for this region. These and many other organizational activities have occupied each evening, week-ends and much of his vacation time.

But his extra curricular work was never allowed to lower his teaching standards. There is evidence to support the statement that Farm Management teaching at the University of Massachusetts is the best in this nation. The test of good teaching comes when the student faces the actual managerial problems. The students' loyalty increases as they are better able to make a decision using Pop's answer "it all depends—."

On October 31, 1956, Pop Barrett will retire from the University staff. His position will be filled but Pop Barrett will never be replaced. He has been, is, and shall continue to be a loyal and devoted friend of Stockbridge men and women.

Dr. Adrian H. Lindsey

FORE WORD

It is the hope and aim of the Shorthorn Board that this yearbook will serve as a remembrance of old memories of our college activities. We have striven to fashion The Shorthorn of 1956 into a true picture of our two years at Stockbridge.

If, after the lapse of time, you may chance to leaf through this book, we hope you will find that the brilliance of a somewhat fading picture is restored. Then, and only then, shall we know our tireless efforts have been a great success.

OUR MESSAGES

I am impressed by the unity of spirit of the Stockbridge School students and alumni, a group with a common interest and aim—better production through scientific agriculture—with a common intensified program—on the campus and on the job—the Stockbridge students have developed an admirable unity. They have contributed much, they will continue to be a distinctive and valued group within our University community. As alumni and well-trained citizens, they will always be welcomed on the campus, and they can serve their Alma Mater well throughout the Commonwealth. We shall always be proud of this distinctive group.

Shannon McCune

Shannon McCune
Provost

Recognizing "That the past is but a prologue for the present and the future" I draw from former President Thatcher's statement in the 1929 Short-horn.

"The Stockbridge School meets a specific need for technical vocational education beyond trade or high school but shorter, more definitely vocational than the degree courses of college or university. Educators recognize that this kind of training is needed for industries other than agriculture.

"The Stockbridge School meets excellently this need and has a most promising future. Further, it is an example for vocational education for many other industries. I congratulate both students and college of this special form of education."

J. Paul Mather

J. Paul Mather
President

TO YOU

The Stockbridge School of Agriculture is an important part of a great College of Agriculture in the University of Massachusetts, and is uniquely qualified to continue the training of young men and women of Massachusetts in various phases of agriculture. Its graduates are the outstanding agricultural enterprisers in Massachusetts and New England.

The fact that many other Land-Grant Colleges are copying this form of training serves as further evidence of the distinctive job that has been done here. Every graduate of the Stockbridge School should be proud, as we are, of the notable reputation the School possesses.

Dale H. Sieling
Dale H. Sieling
Dean

I have a particular interest in the class of 1956 because this was the first class to enter after I became Director. There is no doubt that you represent one of the best classes in Stockbridge history. Under your leadership, student government has become responsible and effective. You have maintained high morale which has been contagious—caught by the class of 1957. It is difficult to define school pride, and yet it is not hard to sense that members of the class of 1956 really are proud of Stockbridge. I wish each one of you happiness and success.

HARRY G. LINDQUIST, M.S.

IN MEMORIAM

One former student has written, "I will always remember him as an outstanding teacher, a fine gentleman, and a real friend."

This portrays to all his friends and students the man from Room 206 Flint Laboratory, who for over thirty-five years was himself the devoted student of dairy science.

His classroom teachings were not his only attribute. He attempted to know each student personally, judging each on sincerity and character as well as knowledge. His were the qualities of a true teacher.

There can be no better monument to his memory than the hundreds of former students, and friends who fondly remember "Lindy" for his staunch faith in the industry that was his life.

The Dairy Industry Staff

FACULTY

POMOLOGY

Left to right: Oliver C. Roberts, Arthur P. French, James F. Anderson.

FORESTRY

Front Row, left to right: Reuben E. Trippensee, Robert V. Ganley, Herschel G. Abbott, Harry J. Rich. *Second Row:* Robert P. Holdsworth, William G. Sheldon, Arnold D. Rhodes, M. Diane Decker, Mary T. Marcinowski, William P. MacConnell.

PLACEMENT

Left to right: Carroll B. Cornish, Emory E. Grayson.

JAMES F. ANDERSON—Instructor of Pomology—West Virginia University B.S.; M.S.; Joined the Faculty 1948.

ARTHUR P. FRENCH—Head of Department of Pomology—Ohio State University, B.S.; University of Massachusetts, M.S.; University of Minnesota, Ph.D.; Joined the Faculty 1921.

OLIVER COUSENS ROBERTS—Associate Professor of Pomology — Massachusetts Agricultural College, B.S.; University of Illinois, M.S.; Joined the Faculty 1926.

HERSCHEL G. ABBOTT—Instructor of Forestry—University of Maine, B.S.; Harvard University, M.F.; Joined the Faculty in 1953.

ROBERT V. GANLEY—Instructor of Forestry—University of Massachusetts, B.S.; Duke School of Forestry, M.F.; Joined the Faculty in 1951.

ROBERT P. HOLDSWORTH—Head of the Department of Forestry—Michigan University, B.S.; Yale University, M.F.; Joined the Faculty in 1930.

WILLIAM P. MacCONNELL—Assistant Professor of Forestry—University of Massachusetts, B.S.; Yale School of Forestry, M.F.; Joined the Faculty in 1948.

ARNOLD D. RHODES—Professor of Forestry—University of New Hampshire, B.S.; Yale University, M.F.; Joined the Faculty 1939.

J. HARRY RICH—Associate Professor of Forestry—New York State College, B.S.; M.F.; Joined the Faculty in 1933.

REUBEN C. TRIPPENSEE—Professor of Wildlife Management—Michigan State College, B.S.; University of Michigan, M.S.; Ph.D.; Joined the Faculty 1936.

CARROLL BURR CORNISH—Placement Officer for Women—Grinnell College A.B.; Syracuse University, M.A.

EMERY E. GRAYSON—Director of Placement—Massachusetts Agricultural College, B.S.

GEORGE B. GODDARD—Instructor in Floriculture—University of Massachusetts, B.S.; Joined the Faculty in 1955.

RANDOLPH A. JESTER—Assistant Professor of Floriculture—Virginia Polytechnic Institute, B.S.; Rutgers University, M.S.; Joined the Faculty in 1954.

DONALD E. ROSS—Assistant Professor of Floriculture—Massachusetts Agriculture College, B.S.; Joined the Faculty 1928.

CLARK L. THAYER—Head of Department of Floriculture—Massachusetts Agricultural College, B.S.; Cornell University; Joined the Faculty in 1919.

VERNE A. ADAMS—Instructor of Dairy and Animal Science—University of Massachusetts, B.S.; Joined the Faculty 1955.

LOUIS N. BAKER—Assistant Professor of Dairy and Animal Science—University of New Hampshire, B.S.; University of Kentucky, M.S.; University of Wisconsin, Ph.D.; Joined the Faculty in 1954.

JOHN MURRAY ELLIOT—Assistant Professor of Dairy and Animal Science—McGill University, B.S.; University of Vermont, M.S.; Joined the Faculty 1950.

RICHARD C. FOLEY—Professor of Dairy and Animal Science—University of Massachusetts, B.S.; M.S.; Rutgers University, Ph.D.; Joined the Faculty 1932.

DENZEL J. HANKINSON—Head of Department of Dairy and Animal Science—Michigan University, B.S.; University of Connecticut, M.S.; Pennsylvania State University, Ph.D.; Joined the Faculty in 1948.

JOHN L. HOBART—Instructor of Dairy and Animal Science—University of Massachusetts, B.S.; Joined the Faculty in 1955.

FRANK E. POTTER—Assistant Professor of Dairy and Animal Science—University of Maine, B.S.; University of Maryland, M.S.; Pennsylvania State University, Ph.D.; Joined the Faculty 1955.

W. BRADFORD JOHNSON—Instructor of Olericulture—University of Pennsylvania, B.S.; University of Massachusetts, M.S.; Joined the Faculty 1947.

GRANT B. SNYDER—Head of Department of Olericulture—Ontario Agricultural College, B.S.A.; Michigan State College, M.S.; Joined the Faculty 1922.

ALDEN P. TUTTLE—Assistant Professor of Olericulture—Massachusetts Agricultural College, B.S.; Pennsylvania State College, M.S.; Joined the Faculty 1930.

The Stockbridge Student Council is composed of representatives from the student body, acting as the Legislative function in Self-Student Government.

Acting under its new Constitution, the council is vested in school promotion through sports, radio, newspaper, and R.S.O. representation, allocation and expenditure of school funds, running the student body as a democracy, and this year organized a General Court of Justice, which acting as a judicial branch, enforces the constitution.

Many other accomplishments were made this year. The Progress Banquet, hockey team, most valuable player trophy, enlargement of Stockbridge space in the Handbook, Stockbridge Day, promotion of eighty inch space in the Collegian, were all made possible by a cooperating student body.

ALPHA TAU GAMMA

A group working together can always accomplish greater things. That has been the primary principle of Alpha Tau Gamma fraternity down through the years.

Participation in all of the activities is the main factor for A.T.G.'s high standing. We competed this year to better our previous high rating, in many ways we have done this.

As all A.T.G. members have always participated in social activities, our first party, a welcome to the freshmen, was attended by one of the largest groups ever seen at our fraternity. Since then we have had a Victory Dance, a Costume Party, a Hobo Party, and our usual great Christmas Party, attended by Santa Claus (Pop Barrett). Other parties were the Valentine Party and our ever-popular Jungle Party.

The Stockbridge School's football and basketball teams were comprised mostly of A.T.G. members. This is one reason why we have such good teamwork and spirit in the fraternity. This spirit is also the reason why we have a fraternity member in each of the senior class offices and members on the student council.

A.T.G.'s unexcelled spirit this year won the Campus Chest Drive for the second year in a row with a new high mark of 367 per cent.

A snow sculpture was made to coincide with the Winter Carnival week-end.

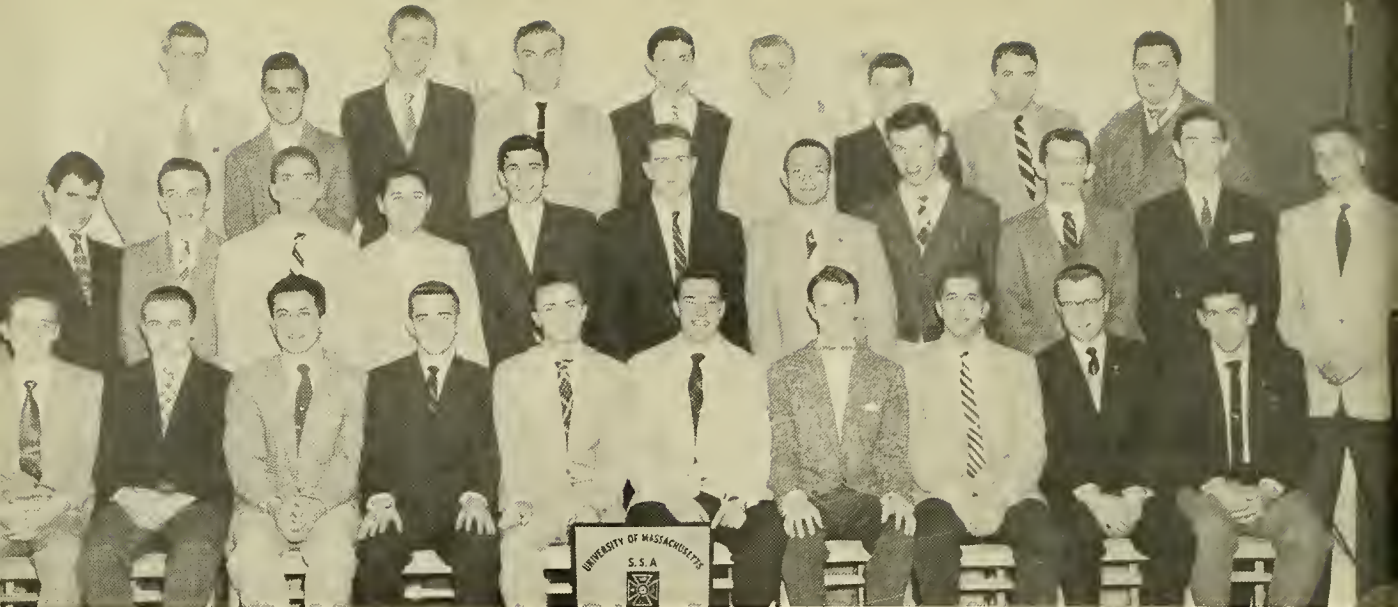

February 24, was the last night of freshman initiation, which took place within the fraternity.

The annual pledge formal was held on March 3, 1956, at the Hotel Northampton. Guest speakers included President, Jean Paul Mather; and Director, Fred P. Jeffrey.

This year Alpha Tau Gamma achieved its goal in student organization and friendship, a milestone gained by the fraternity brothers; a mark to be proud of.

LOUIS ALLESSIO
President

Front Row, left to right: B. Whitman, R. Mason, P. De-Santis, D. Flynn (*Treasurer*), D. Moriarty Jr. (*Secretary*), F. Schultz (*President*), S. O'Flanagan (*Vice-President*), A. E. Watts (*Marshall*), R. Hurle (*Historian*), R. W. Gurin (*I.F.C. Representative*). Second Row: G. Hutt

(*Social Chairman*), G. Richards, M. Friedberg, R. Newman, F. Mazzie, J. Hayes, R. Hume (*House Father*), G. Lesslie, P. D'Errico, H. Morse, A. Ransberry. Third Row: R. Streeter, J. Duponte, D. Randall, E. Melander, E. Yukl, K. Gricus, R. Fitzpatrick, D. Pozzetta, R. McDonough.

KAPPA KAPPA

The year 1956 is one to be remembered by the boys of Kappa Kappa. It proved to be one of the most fun-filled and profitable years the house has yet enjoyed.

Kappa Kappa started the year off with a huge Harvest Party and barn dance which was talked about for many weeks. The house had a Mexican party where the Mexican motif took over. To top off 1955 we had a Christmas party with a buffet supper served in our own kitchen by our excellent cooks in food management. The opening of the house's new rustic style bar was in the accompaniment of good food and Christmas Carols by a near record crowd of 100 people.

On January 23, after much fun with initiation stunts and various hazings, our pledges finally became members. At this time Kappa Kappa, a member of the Interfraternity Council, began to take their basketball and bowling competition with the University seriously.

Another highlight of the year was the annual banquet, held at the Williams House in Williamsburg, at which we had a wonderful time. Dean Jeffrey was the guest speaker. Still another event to be remembered was the cocktail party with A. T. G., and the Winter Carnival weekend. The house entered an exact replica of a New England Church in the Snow Sculpture Competition.

As the year drew to a close, seniors began to regret having to leave while the freshmen eagerly looked forward to next year when their chance would come. The year 1956 will always remain in our minds as we look back on the spirit, the friendships, the fun we shared when we were members of a wonderful fraternity, Kappa Kappa.

ORNAMENTAL HORTICULTURE CLUB

Left to right: George Cañan, Einar Rasmussen, Kenneth Chase, David Peterson, Kenneth Alman, Michael Connor, John Zecher, John McKinstry.

With only two veterans returning, the Octet in its second organized year has done a tremendous job.

Auditions were held early in the year; and under the competent direction of Robert Ames the group was soon rehearsing many of the old "Barbershop favorites".

The Octet was first heard at a Convocation, from there they moved to various church functions;

OCTET

as their popularity increased they were heard at "Hickory House" and "Wiggins Tavern".

During the Semester vacation they accompanied the University Chorale to the South Shore where they were received very warmly.

The Octet, an up and coming organization, is ever increasing in popularity on and off of the campus.

BRUCE R. DALRYMPLE

VARSITY "S" CLUB

The Varsity "S" Club is made up of lettermen of all the sports in Stockbridge. The chief aim of this organization is to maintain good spirit and social get-togethers for the athletes. Movies are

shown along with speakers from the sporting world. As this is only the second year in the history of the club, there have been some limitations in finances, but none in the spirit of the men.

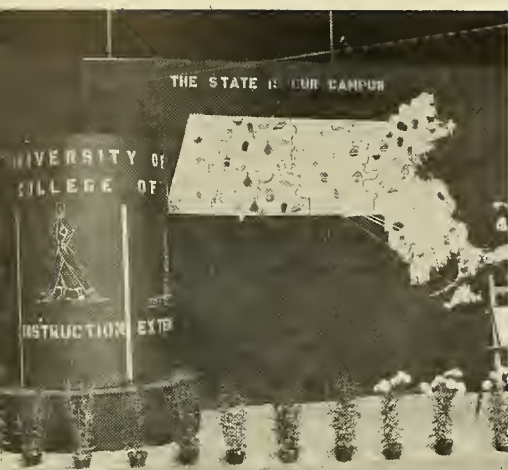

JOHN SEARS

Front Row, left to right: W. Rodenhizer, E. Murphy, A. Johnson, J. Sears, D. Freed, L. Alessio, L. Williamson, S. Perry. Second Row: B. Howland, G. Dugus, L. Gerrior, D. Coombs, D. Kelliher, R. Black, C. Richardson, J. Holmes, W. Ogden, W. Rose, J. Fiorini.

FEATURES

HORTICULTURE SHOW

HORTICULTURALIST OF THE YEAR AWARD

Left to right: Dean Sieling, S. Lothrop Davenport (Horticulturalist of the year); Provost McCune.

The theme for this, the 43rd Annual Horticultural Show, was "The State Is Our Campus".

The main feature was a huge map showing how the counties are served by the University. This was surrounded by the fine departmental exhibits and the individual student 10 x 10's which all pointed out the many services performed by the University.

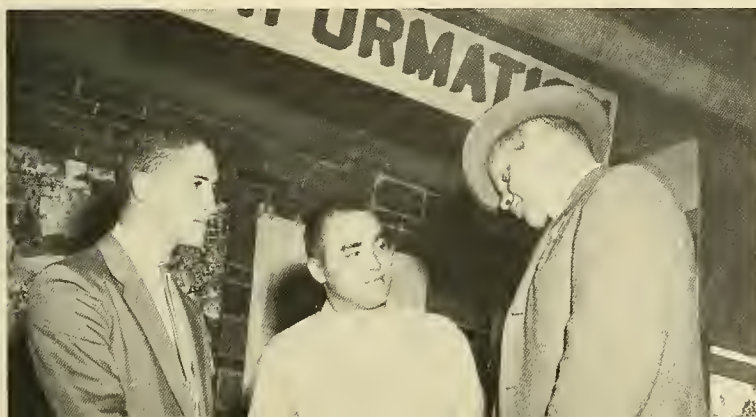

This year a new idea was initiated, the person who made the outstanding accomplishments in the field of Horticulture took over the spotlight replacing the traditional queen.

The Horticulturalist of the year was S. Lothrop Davenport of Worcester, the first person to receive this honor.

It is the feeling of the student body that this new honor has a far greater significance and will do more to distinguish Stockbridge than any other idea associated with the show.

Although the November weather was responsible for a slightly smaller crowd than last year's show, this show was a great success.

John F. Lynch

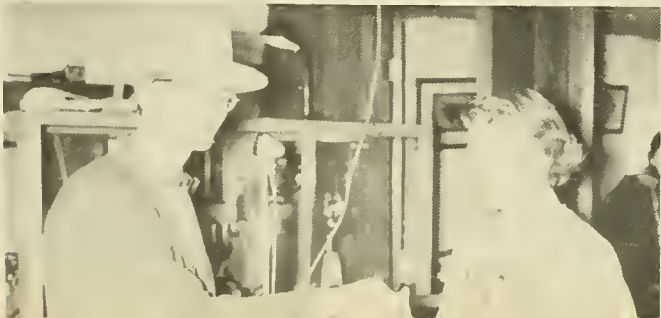

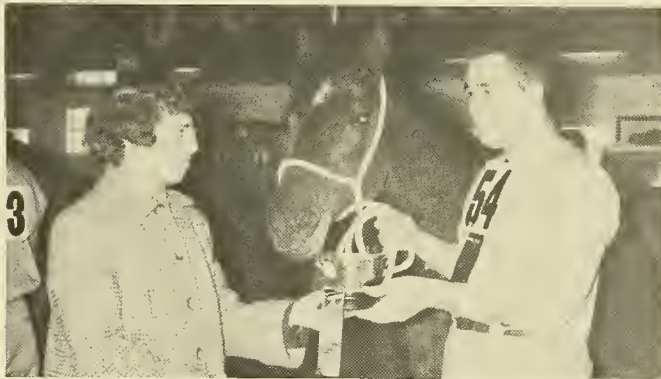

Premier Showman—James Anderson.

LITTLE INTERNATIONAL

This show is patterned after the International Livestock Show held annually in Chicago and is participated in by the two-year seniors and the four-year juniors majoring in Animal Husbandry. While not striving for the spectacular, the show is a great attraction for about a 1,000 people every year—both farmers and city folk who are interested in seeing beautifully-groomed and expertly-trained animals shown to their best advantage. Morgan horses, Hereford and Angus cattle, Shropshire sheep and Chester White hogs are the animals exhibited.

This year's premier showman was James Anderson, a Stockbridge student from Pembroke; the reserve showman—Carl O'Neil, a University student from Kingston, and honorable mention went to Thomas Stone, Stockbridge, from Westfield.

WINTER

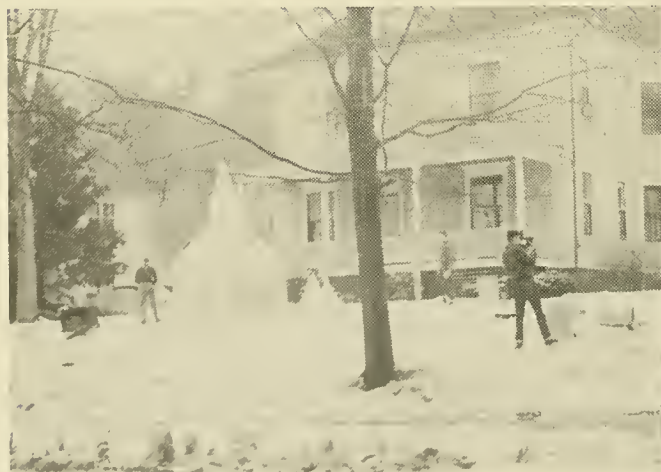

CARNIVAL

The theme of this year's Winter Carnival was "Old New England". It opened with a hay ride, followed by fireworks and a jazz concert. On Friday evening the Winter Carnival Ball featured Tex Beneke and his orchestra. Joan Crawford was crowned Winter Carnival Queen by President Mather. A buffet supper was held after the ball.

In the snow sculpture judging, Sigma Phi Epsilon's "Evening Round", Chi Omega's "Parting Promise", and Lewis dorm's "Home Is Where The Heart Is", were winners in their respective classes.

The famed Sno-Ball dance of the Stockbridge School, a carnival feature last year, was held again and went over with great enthusiasm as the crowd rocked and rolled to the rhythm of Red Cooper's orchestra.

Another highlight of the carnival was the spectacular swimming show by the Naiads at the U. of M. pool.

SNOW

BALL

For the second year, the Sno-Ball, a Stockbridge sponsored dance, was held as a part of the Winter Carnival Weekend. Again this dance proved a big success.

Few could recognize the interior of the Drill Hall where the dance was held, due to the excellent work of the committee on decorations. Another touch of gaiety was the handsomely attired couples who rocked and rolled to the fabulous rhythm of "Red Cooper" and his orchestra.

The attendance of Dean Jeffrey and his guests put the finishing touch to an evening that is sure to become a necessary part of this ever-popular weekend.

Bruce Dalrymple

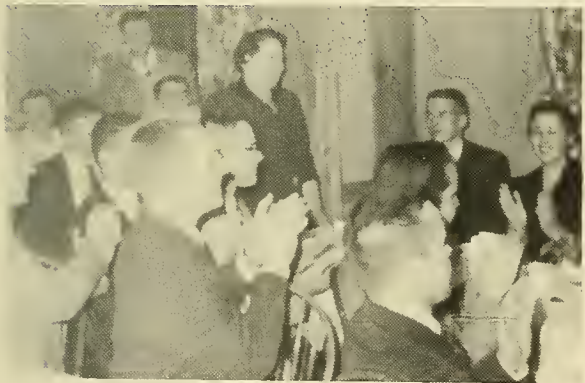

PROGRESS BANQUET

The purpose of the Progress Banquet was two-fold: first it was to honor the many students whose achievements have been outstanding in the past, such as the football team and its outstanding player, Larry Gerrior, the Cheer Leaders and the Collegian Staff for their tireless work in promoting Stockbridge; Alpha Tau Gamma and Berkshire House for their first place awards in the Campus Chest drive.

The second reason for the Progress Banquet was to add emphasis to the great school spirit that has been generated by the Class of "56" and give it a boost into the final months of our school years.

If the classes of the future show as much enthusiasm as this class has we feel sure the banquet cannot help but become an annual affair.

Fred Wall

STOSAG

Front Row, left to right: R. Goodreau, S. Boraski, A. Watts, E. Bardy, G. Dickson, J. Stewart, S. O'Flanagan. Second Row: H. White, D. Lawrence, D. Brown, C. Zimmermann, C. Lee, G. Tyler, T. Kuczewski, J. McKinstry. Not present: W. Prediger.

Stockbridge seniors with distinguished scholastic records are honored by election to Stosag. The derivation of Stosag is obvious—"Sto" from Stockbridge, "s" from school, and "ag" from Agriculture.

To qualify for election by the Stockbridge Advisory Committee the student must have maintained an average grade of 3.4 points quality or better.

This is determined by allowing 4 points for every A, 3 points for every B, and 2 points for a C. No grades of D or lower are considered.

Stosag was established in 1935 at the suggestion of Professor Miner J. Markuson and the 1956 members represent the seventeenth crop.

Congratulations to those elected in 1956.

BASKETBALL

The basketball season for the Blue-Devils was hardly as successful as was anticipated.

Diligent practice sessions were inaugurated just prior to the Christmas vacation and by Jan. 9th the team was ready to undertake a twelve game season which promised to be a real tax of the players abilities.

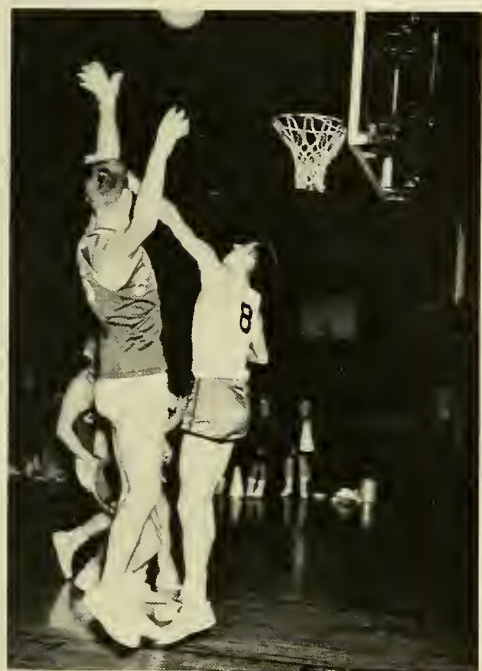

Although the record shows two wins and ten losses, it fails to show the enthusiasm and the amount of effort displayed by each and every member of the squad.

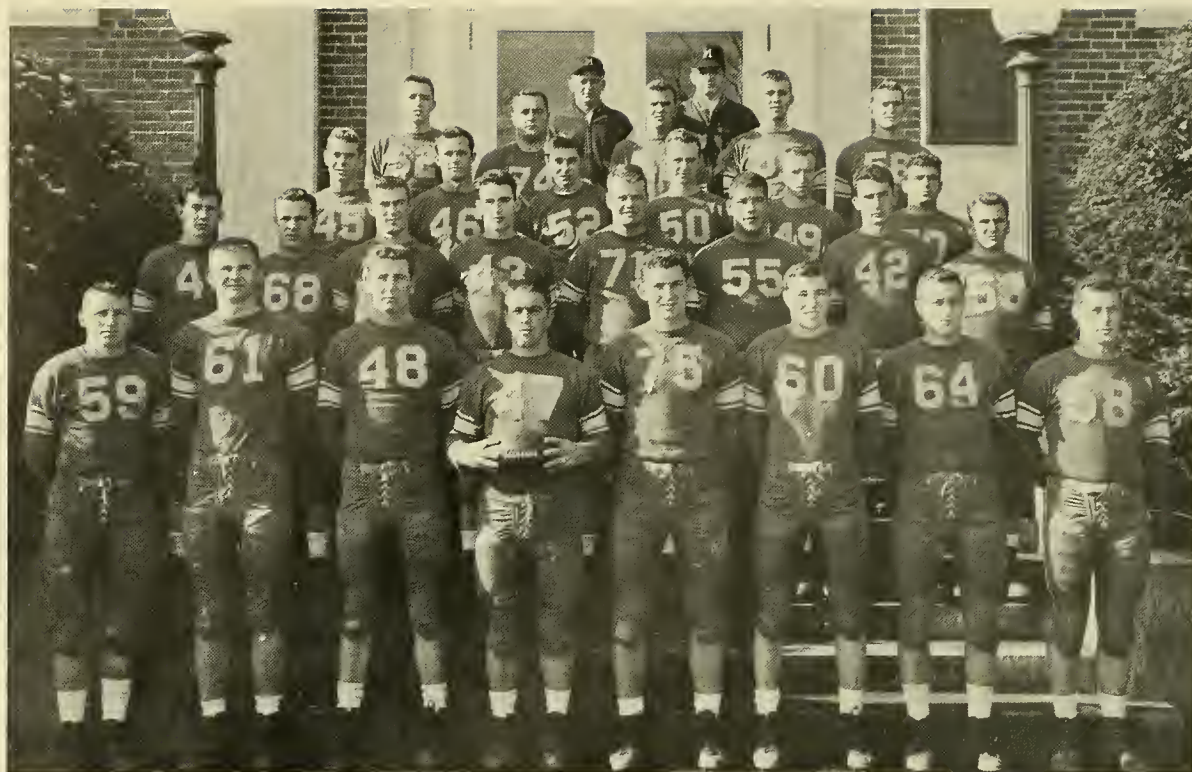

The biggest problem for the "Aggies" seemed to be getting started after the midway mark in the game. They held their own in all of the games until it came to this point; then, it just seemed as

if someone put a lid over the basket.

Much credit is due Coach "Hank" Wornicz for doing his part in coaching the boys.

FOOTBALL

Coach Steve Kosakowski had high hopes for the '55 "Aggie" football squad, when they showed up for practice late in September. As usual there was hardly enough time for "conditioning" before the first game against Thayer Academy on October 1, but team spirit was exceptional as the Blue Devils set out to win them all.

For the first time in the history of the school tri-captains were elected to represent the team. Dale Freed, Jack Tierney and Vern Rix were given the honors.

Another first for the S.S.A. was the presentation of the "Outstanding Player Award". This

coveted trophy was given to Larry Gerrior.

An impressive record of four wins, one tie, and one loss was put on the books by the team this year. The only defeat coming at the hands of a powerful Mt. Hermon team at the end of the season.

MR. SOUTHWICK'S SALUTATORY

A student told me sometime ago that he did not know why he was wasting his time here in Stockbridge. He had previously worked for a very well known landscape architect who had taught him everything there was to know. With some assistance from other students he was soon convinced that there was a few things he did not know. His placement was so arranged that he went back to work with his former employer and together they incorporated some of the things he learned at school into the business to the satisfaction of both parties. I have had occasions to speak with that student many times since then. He talks now of the opportunities for further study and sees no end to the opportunity to learn more about his chosen field

It is even more difficult for a student to understand why when he comes here hoping to learn everything finds himself leaving, knowing very little compared to what he wants to know. This is typical of higher education for as we approach mastery of our field we find that there are many things that are still unexplainable. Stockbridge is designed to give you a fundamental training to prepare you to meet the problem, analyze it, and solve it or know where to find the solution, if one

exists. If you have absorbed the information presented in Stockbridge, yet feel that you still have a lot to learn you are in a position to enter your chosen field and accomplish wonderful things. George Herbert, the great metaphysical poet, said it this way:

*I know the ways of learning, both . . .
In laws and policy; what the stars conspire
What willing nature speaks, what forced by
fire;
Both the old discoveries, and the new-found
seas,
The stock and surplus, cause and history;
All these stand open, or I have the keys . . .*

There seems to be a disease in Stockbridge, a contagious enthusiasm that infects both student and faculty. It is characteristic of the school as is evident in the cooperation between student and faculty in making it the best of its type. I was very pleased to be chosen as Pop Barrett's successor as advisor to the yearbook. I know only too well the boots I am asked to fill and know that each succeeding yearbook will be better than the previous ones because of the traditional interest and enthusiasm endowed in it by Pop Barrett.

POP BARRETT'S VALEDICTORY

It does not seem possible that it was 25 years ago last Fall that Edward M. Butler, a senior in the Stockbridge School, came into my office and asked me to act as faculty advisor to the 1931 Shorthorn Staff. Ed, as the new editor, had presented the idea to Director Verbeck; he had given his approval and thus I became the first faculty advisor to the Board of the Stockbridge yearbook. For the past 25 years I have served continuously except for the school year 1934-35 when I was on leave and Professor Richard C. Foley took over for me for the 1935 book.

Serving in this capacity with the students over the years was a grand experience. I would like to pay tribute to each Editor, to each Business Manager and to the many students who served on each Shorthorn Board. They are the ones who did the work, they are the ones who spent long hours assembling the material and they are the ones who deserve the credit for a job well done.

By associating with the students in this way outside of the classroom I became very well acquainted with them which has resulted in many life-long friendships. While the job as faculty advisor took quite a bit of my time I never con-

sidered it a task. On the contrary, I found it to be a very satisfying and an exceedingly interesting experience.

Being advisor to a yearbook staff is something like being coach of an athletic team; some years there was plenty of outstanding talent on the board while other years there was a shortage which meant a shift in the line-up for the various positions. However the students always met the challenge, made the necessary adjustments and put out a very creditable Shorthorn, a publication which reflected the high standards of the Stockbridge School. Each year after the book was published and the students saw the finished product the comment by the Editor invariably was, "This is the best Shorthorn ever put out, we feel sorry for you and the members of the board next year." But like the running brook, faculty advisors and students may come and go but the publication of the Shorthorn will go on forever.

Yes, my association with the Shorthorn boards for the past 25 years leaves many fond memories. May the Shorthorn carry on its high standards and reflect the continued progress of the Stockbridge School.

ACKNOWLEDGMENTS

In this publication, as in any other publication of this sort, there are those people who work behind the visible scenes.

The purpose of this page is to publish their names, separate from any others, so all may know who they are; it is an attempt to thank them for their quiet acceptance and untiring labor in compiling the immense amount of material it takes to publish a book of this type.

We gratefully acknowledge:

Professor Rollin Barrett — Mister Richard Southwick, President Mather, Provost McCune, Dean Sieling, Director Jeffery, Mr. McCartney, Mr. Tilley, Professor Vondell, Mr. Hume, Mr. Koşarick, Mr. Mitchell Koldy, Dr. A. H. Lindsey, Dr. Denzel Hankinson, Dr. Louis Baker, Mrs. Marron Du Bois, Miss Katharine Martin, Miss Catherine Heffernan, Mrs. Donald Barnett, Mr. James Burne.

Our thanks to all those who have made this year's "Shorthorn" possible.

YOU MAKE YEARBOOKS FUN HERE AT PROGRESS

in

"The City of Albany"

Working closely with you has been truly a wonderful experience. In the beginning there was nothing except enthusiasm, ideas and many blank pages. Upon this meager foundation you have built this beautiful memory book. Our work at Progress really is fun . . . because we enjoy, so much, getting to know such splendid faculty members and students as you.
